DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 17-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Regarding claim 18, the phrase "A computer program product tangibly embodied on a computer readable medium" in line 1 renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "A computer program product tangibly embodied on a computer readable medium"), thereby rendering the scope of the claim(s) unascertainable.

Allowable Subject Matter

4. Claim 2-8, 10-14 and 24-27 are allowed.
5. Claim 18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
6. Claim 17 and 19-22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

7. The following is a statement of reasons for the indication of allowable subject matter: The present invention is directed to a method for processing SONET/SDH output signals. The prior arts in the record fail to teach or make obvious to a method comprising checking the second control bit only if the control bit is set within a structure of the claim. These features are claimed in the independent claims 7 and 24.

Response to Arguments

8. Applicant's arguments with respect to claim 2-8, 10-14, 17-22 and 24-27 have been considered but are moot in view of the new ground(s) of rejection.
